

Wireless Conferencing at Taipower Taiwan:

Enhancing Collaboration and Flexibility

To enhance collaboration and communication in its meeting spaces, Taiwan's Taipower implemented Televic's Confidea G3 Wireless system, a seamless wireless conferencing solution.

The Challenge:

Taipower's boardroom, with its unique configuration of **multiple round tables**, posed a challenge for traditional wired conferencing systems. The setup required **extensive cabling** and, additionally, the company sought a solution that would be **easy to set up and use**, ensuring **plug-and-play meetings** for all participants.

The Solution:

Televic's Confidea G3 Wireless proved to be the ideal solution for Taipower's needs. This innovative system uses wireless technology to eliminate the need for cumbersome cables, allowing participants to move **freely around the room** without compromising audio quality. The sleek and compact design of the **Confidea units** complements the modern aesthetic of the boardroom.

The Benefits:

The implementation of **Confidea G3 Wireless** has brought significant benefits to Taipower's meeting environment:

- **Enhanced Collaboration:** The wireless nature of the system encourages active participation and collaboration among meeting attendees.
- **Increased Flexibility:** Participants are no longer attached to specific locations, fostering a more dynamic and flexible meeting experience.
- **Simplified Setup and Use:** The plug-and-play functionality of Confidea G3 Wireless ensures that meetings can start quickly and efficiently, without the need for technical expertise.
- **Improved Audio Quality:** The system delivers crystal-clear audio, ensuring that every participant can clearly hear and be heard.

Televic also collaborated with **Fantasy Sound** to implement the Confidea G3 Wireless system at Taipower, ensuring a seamless installation with minimal disruption.

Taipower's adoption of Televic's Confidea G3 Wireless system demonstrates the company's commitment to fostering a **collaborative and productive work environment**. The wireless conferencing solution has transformed the company's boardroom into a **modern and flexible meeting space, enabling effective communication and collaboration among its workforce**.
